

Dear SASCRO Colleagues

SAJO has had a successful 2018

- SAJO met the key benchmark of 12 peer reviewed publications per year in 2017 and 2018.
- These publications came from South Africa (17), Sudan (2), Cameroon, Kenya Nigeria, USA and Canada
- The publications have been heavily downloaded internationally with about 14 000 downloads of articles published in 2017 and 2018.
- There are already 5 articles, due to be published in 2019, which have gone through peer review.
- SAJO is on track to apply for accreditation from the SA Dept of Education in 2020.

The banner picture for SA Journal of Oncology 2019 is above

- In 2017, we had the SA Protea
- In 2018, we had the water-wise Vygies
- In 2019, we will have Pretoria Jacarandas

I wish to acknowledge all the professional societies who are affiliated with the journal.

I thank all those who have supported SAJO as authors, reviewers, members of the editorial board and readers.

Kind regards,
Raymond Abratt
SASCRO Chair
